Regarding the Development Projects Depicted Here

The development projects shown are those that have come to the attention of the Planning Department. There are certain to be other developments being contemplated or planned by private individuals or corporations that the Planning Department has not been informed of, therefore this is not a complete depiction of the development projects for the county. Further, as of this date, the Planning Department does not track development projects smaller than 6 dwelling units and subdivisions of less than 4 lots.

For projects identified as "Proposed", no formal submission has been made to the Planning Department – so none of the information is firm. For projects identified as "Planned/Designated", the fate of these projects is entirely uncertain.
