
Chapter 9:

Consultation

9. CONSULTATION

The pre-assessment consultation process included efforts to inform the community and solicit input in scoping the DEIS well beyond the requirements of Chapter 343, HRS. This process included consultation both prior to the publication of the EISPN on February 8, 2017 and during the 30-day public comment period on the EISPN in the form of formal written consultation pursuant to Chapter 343, HRS and Title 11, Chapter 200, HAR; meetings with elected officials, agencies, and stakeholders; and a community outreach process, including two public scoping meetings. These outreach efforts are documented below.

9.1 Early Consultation

The following agencies, organizations, and individuals were sent early consultation letters on November 23, 2016, requesting comments on the Proposed Action prior to the publication of the EISPN (See second column in Table 9-1). Those who provided written responses to the early consultation letters are listed in the third column of Table 9-1. Copies of all written comments received are reproduced herein as Appendix J. Response letters to those who submitted substantive comments during early consultation but did not submit written or oral comments during the 30-day public review period after publication of the EISPN are also included in Appendix J. Response letters to those who submitted substantive comments during early consultation and who also provided written or oral comments during the 30-day public review period are provided in Appendix M.

9.2 Summary of Applicant's Community Outreach and Consultation Efforts During the EISPN Comment Period

The following agencies, organizations, and individuals were consulted following publication of the EISPN. Consultation was conducted to solicit comments from agencies, organizations, and individuals regarding any concerns with the Proposed Action and agency requirements. Notice of the availability of the EISPN was published in the February 8, 2017 issue of *The Environmental Notice*. Copies of all written comments received during the EISPN comment

period along with response letters are reproduced in Appendix M. Table 9-2 lists the agencies, organizations, and individuals who were provided a copy of the EISPN or otherwise participated in the EISPN consultation process. Table 9-2 also indicates the agencies, organizations, and individuals who will receive notice of the DEIS.

Public input on the EISPN was provided via oral testimony at two public scoping meetings, as well as by e-mail, fax, and letters received during the 30-day EISPN comment period. Substantive comments on the EISPN related to scoping of the DEIS were carefully evaluated during the preparation of this DEIS and incorporated, as appropriate, into the document. Full consideration was given to the concerns, suggestions, information, and documentation provided by the commenting individuals, groups, and agencies. In addition, although the 30-day public comment period provided on the EISPN ended on March 10, 2017, public comments received after that date were also considered. Transcripts for both scoping meetings comprise Appendix K and L of this document.

As a key component of the DEIS outreach process for the Proposed Action, the applicant hosted two scoping meetings to engage stakeholders and solicit input on the EIS process. Both scoping meetings were held on the island of Maui in February of 2017.

Notification of the EIS scoping meetings was published in the Maui News on February 19, 2017, as shown on Figure 9-1. In addition, a comprehensive effort was made to reach out to engage as many neighborhood stakeholders and community members as possible to participate in each scoping meeting. At each meeting, more than 100 participants made up of neighborhood residents, general community members, community stakeholders and leaders, and City and State officials were in attendance.

EIS Scoping Meeting #1: The first community scoping meeting was held at the Maui Electric Company Community Meeting Room in Kahului on the evening of February 22, 2017.

EIS Scoping Meeting #2: The second community scoping meeting was held on the evening of February 23, 2017, at the Ha'ikū Park and Community Center in Pā'ia.

The format for each meeting was identical. Each meeting was facilitated by a meeting facilitator who introduced the EIS preparers from WOC, set courtesy rules for comment and/or response interaction, notified participants that a court stenographer was present to record the meeting, notified participants that those who signed up to give oral comments would be called upon to speak, and encouraged participants to submit comments before the comment deadline. Project display materials and hand-out sheets, comment forms with submittal information, and a comment drop box were provided at each meeting.

Figures 9-2 and 9-3 reflect the number of participants who signed in at each scoping meeting and the number of speakers who signed up to share oral comments. The number of registered participants is based on the number of individuals who signed an attendance sheet upon arriving at each hearing. A total of 114 people signed the attendance sheet for the February 22, 2017 meeting at the Maui Electric Company Community Meeting Room in Kahului and a total of 36 people signed up to share oral comments although not everyone that signed up spoke. Only 34 people shared oral comments for the scoping meeting held on February 22,

2017. A total of 140 people signed the attendance sheet for the February 23, 2017 at the Ha'ikū Park and Community Center in Pā'ia and a total of 47 people signed up to share oral comments although not everyone spoke. Only 34 people were able to share oral comments for the scoping meeting held on February 23, 2017. The total attendance for both meetings was higher than the number of those who registered as not everybody signed the attendance sheet. A total of 144 written comments were received during the EISPN comment period. However, not every person that commented on the EISPN provided an address (physical or electronic mailing address). Therefore, response letters, including the Draft EIS Notification, could not to be sent to those people. Nonetheless, comments from those that did not provide an address are reproduced with an appropriate response letter in Appendix M. These people are indicated below, in Table 9-2, without a checkmark in the "Draft EIS Notification" column.

9.3 Draft EIS Consultation

Pursuant to Chapter 343, HRS and Title 11, Chapter 200, HAR, the DEIS will be available for public review during the 45-day DEIS comment period to solicit comments from public agencies, elected officials, and community organizations regarding their concerns and agency requirements. Copies of all written comments received, along with their respective responses, will be reproduced and included in the Final EIS.
